

Ryan J. Collins

Managing Shareholder

O: 202-393-1200 C: 202-731-0280

Ryan's practice is focused on natural gas pipeline, oil pipeline, and electricity transmission and energy market regulation, before the Federal Energy Regulatory Commission (FERC), other federal agencies, and federal courts. Ryan is recognized by *Chambers USA* as being an "extremely bright and talented lawyer with very strong written and oral advocacy skills."

On the electricity side of his practice, Ryan focuses on capacity markets, organized wholesale energy markets, and transmission planning and cost allocation for clients such as PJM Interconnection, L.L.C. He assists natural gas clients in obtaining certificates of public convenience and necessity to construct new or expansion facilities, ensuring compliance with regulatory requirements, gas import/export authorizations, as well as prosecuting both Natural Gas Act (NGA) section 4 and section 5 rate and tariff matters. He handles matters ranging from litigation to rulemaking and counsels clients regarding regulatory compliance and operational responsibilities. He brings a sharp and critical thinker mindset to his work.

SERVICES

Electric Energy Regulation

Natural Gas Pipelines

Oil Pipelines

EXPERIENCE

Assisting natural gas pipeline companies in NGA section 4 general rate cases and NGA section 5 investigations and in matters of compliance, standards of conduct, and tariff implementation.

Assisting natural gas pipelines in project development, including obtaining and defending certificates of public convenience and necessity, negotiating precedent agreements, and drafting open season materials.

Representing a regional transmission organization (RTO) in obtaining FERC approval of the capacity reforms to PJM's capacity market, which is known as the Reliability Pricing Model (RPM) including changes to The Minimum Offer Price Rule.

Representing an RTO in proceedings before FERC regarding wholesale energy and reserve markets, as well as other tariff matters, reliability agreements, and transmission planning and cost allocation matters.

Assisting a natural gas pipeline regarding NGA section 3 authorizations and Presidential Permits issued by FERC to permit construction of natural gas pipeline facilities across the U.S.-Mexico border.

Assisting clients in defending FERC-established returns on equity.

Assisting natural gas pipelines in regarding FERC's Natural Gas Policy Act section 311 regulation for intrastate pipelines to offer interstate service.
